FEDERAL GOVERNMENT EMPLOYMENT

JANUARY 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1965.

INTRODUCTION:

The Federal Government, including its corporations, employed a civilian staff of 344.7 thousand in January 1966, virtually unchanged from December 1965 but 2.3 p.c. above January 1965. The month-to-month comparison of payrolls indicates a 7.8 p.c. increase to \$165.5 million and the year-to-year comparison shows a 16.8 p.c. gain over the January 1965 payroll of \$141.8 million. Payroll increases have resulted from general salary revisions for some 62,000 employees (see page seven of this publication and also the September 1965 report).

Payroll aggregated \$1.56 billion from April 1965 to January 1966 inclusive and \$1.44 billion for the same months of 1964-65. The increase was 8.3 p.c.

January 1966

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Employment of these organizations was 208.7 thousand in January 1966, up 0.3 p.c. from December 1965 and 2.8 p.c. from January 1965 (203.0 thousand). Total payroll at \$99.4 million was up 12.5 p.c. from the \$88.4 million payroll of December and 24.3 p.c. from the \$80.0 million for January 1965.

Retroactive salary increases accounted for most of this payroll increase. Some 19,000 professional and technical employees received approximately \$4.2 million for the period July 1 to December 31, 1965 and 70,000 clerical employees received approximately \$3.3 million for the period October 1 to December 31, 1965. The new rates of pay were used in computing January 1966 payroll statistics.

Total payroll April 1965 through January 1966 was \$888.4 million, a 10.1 p.c. gain over the \$806.8 million payroll of the same ten months in 1964-65.

The function "Public Health" registered a 19.5 p.c. increase, or 200 employees, between December 1965 and January 1966. This reflects the transfer of 200 people from Veterans Affairs (function: Veterans' Pensions and Other Benefits) to National Health and Welfare.

Fourth quarter 1965

Comments:

A comparison of hiring and separation rates of the fourth-quarter-1965 with those of the third-quarter-1965 and the fourth-quarter-1964, indicates a few noteworthy variations. Hirings in the Civil Service Commission were high with staff added to the "Language Training Section" and the "Bureau of Classification Revision". Hirings increased in the Dominion Bureau of Statistics in preparation for the 1966 population census of Canada. In the fourth quarter acquisition of staff occurred at a high rate in the Department of National Health and Welfare; additions were made generally and not to any particular departmental program.

Notes and DefinitionsNotes:

This table is published four times a year, in the January, April, July and October issues of this publication, presenting data covering the previous quarter. The table shows for each three-month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees, (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

Definitions:

1. Hiring: The initial appointment of a person to the reporting "department" whether as a new employee in the Government Service or by transfer from another "department". Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
2. Separation: The termination of service of an employee in the reporting "department" by leaving the Government Service or by transfer to another "department". Movements within a "department" are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include departmental branches or services having a separately administered personnel office.
3. Average employment: As used in the table on hiring and separations represents the mean monthly average number of employees in each "department" during the quarter.
4. Monthly average (as pertains to hirings and separations): represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
5. Monthly rate per 1,000 employees (as pertains to hirings and separations); the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1,000}{\text{average employment (during quarter)}}$$

October 1 to December 31, 1965

Various departmental reorganizations were announced by the Prime Minister in a press release dated December 18, 1965. Several changes were effective January 1st; however, sufficient detail of the position transfers involved was not available in time for the tables of this publication to be adjusted.

FEDERAL GOVERNMENT EMPLOYMENT

FEBRUARY 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1965.

INTRODUCTION:

Civilian employment of federal departments and corporations increased from 344.7 thousand in January 1966 to 346.1 thousand in February, a 0.4 p.c. increase. Payroll, on the other hand, was down 7.2 p.c., from \$165.5 million in January to \$153.6 million in February. Commentary on these changes can be found on pages 6 and 7. Staff strength was up 2.8 p.c. and pay 10.3 p.c. from February 1965.

The combined payrolls for January and February were \$319.1 million in 1966, up 13.5 p.c. from the comparable figure of 1965. Payroll aggregated \$1.71 billion in the first eleven months of the 1965-66 fiscal year, a gain of 8.4 p.c. over the \$1.58 billion aggregate payroll for the same period of 1964-65.

February 1966

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

February 1966 employment and payrolls of these activities changed slightly (- 0.1 p.c. and - 3.9 p.c. respectively) from January 1966. The respective changes from February 1965 were + 1.5 p.c., or 2.1 thousand, and + 7.2 p.c., or \$4.39 thousand.

The month-to-month decrease in payroll is accountable to Canadian National Railways. This decline occurred mainly because there were fewer working days in February than January.

Payroll for January plus February was \$129.5 million in 1966, up 7.1 p.c. from 1965. For the first eleven months of the fiscal year, payroll amounted to \$729.8 million in 1965-66, an increase of 6.0 p.c. from 1964-65 (\$688.6 million).

February 1966

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

Departmental staff strength at 210.0 thousand in February 1966 was 0.7 p.c. greater than that of January 1966 and 3.7 p.c. more than February 1965. Regular payroll for the month under review was \$87.5 million, a decrease of 0.7 p.c. from January but up 12.3 p.c. from February a year ago.

The month-to-month drop in total payroll was 9.4 p.c., or \$9.3 million, reflecting a substantial reduction in retroactive payments from some \$8.0 million in January (pay associated with the general salary revisions reported in the January issue of this publication) to approximately \$400 thousand in February. In addition, post-Christmas overtime of regular salaried staff of the Canada Post Office in January, costing some \$1.9 million, was \$1.4 million more than the February overtime pay to these employees.

Total payroll for the first two months of 1966 was \$189.6 million, up 18.4 p.c. from that of 1965. Cumulative payroll April to February was \$978 million for the period ending February 28, 1966 and \$887 million for the period ending in 1965.

FEDERAL GOVERNMENT EMPLOYMENT

MARCH 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1965.

INTRODUCTION:

Total civilian employment in the Federal Public Service was 348.9 thousand at March 31, 1966. This was 2.8 thousand or 0.8 p.c., greater than February 1966 and 11.7 thousand, or 3.5 p.c., more than March 1965.

The monthly payroll of \$158.4 million was up \$4.8 million, or 3.2 p.c., from February 1966 and \$14.7 million, or 10.2 p.c., from March 1965.

The 1965-66 fiscal year payroll was \$1.87 billion, a rise of \$147 million or 8.6 p.c. over the previous fiscal year payroll. Cumulative payroll January 1 to March 31 was \$478 million in 1966 as opposed to \$425 million in 1965, a gain of 12.4 p.c.

March 1966

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS:

These employees numbered 212.6 thousand in March 1966, up 1.2 p.c. from February and 4.5 p.c. from March 1965.

Regular payrolls at \$88.9 million were 1.6 p.c. greater than February and 11.4 p.c. more than March 1965. Like comparisons of total monthly payrolls indicated advances of 1.0 p.c. and 12.7 p.c. respectively.

The month-to-month comparison, by function, of staff strength identified increases in the Department of Northern Affairs and National Resources affecting functions:

- (a) "Education: Indian Schools, Eskimo Schools and Schools in N.W.T." - a large increase in the number of teachers due to an audit of records.
- (b) "Natural Resources and Primary Industries: Other" - increase in casual and prevailing rate employment at Yellowknife, N.W.T.

Aggregate payroll for the period January 1 to March 31 was up 16.5 p.c., from \$240.8 million in 1965 to \$280.6 million in 1966. This payroll increase occurred largely in regular payrolls (up \$28.5 million) and to a lesser extent in retroactive and overtime payments (up \$11.3 million).

A comparison of fiscal year payrolls shows an increase of 8.0 p.c. in regular payroll. In contrast total payroll was up by 10.5 p.c. due to heavy increases in retroactive and overtime payments. Further details are shown below.

FEDERAL GOVERNMENT EMPLOYMENT

APRIL 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in part C of this report.

INTRODUCTION:

In this publication, 4,602 Semi-Staff Post Office employees are included for the first time. This increased the numbers and payroll reported in Tables 1 and 3A to 9 inclusive. The comparisons of statistics given below exclude these staff.

Civilian employment of the Public Service totalled 355.9 thousand at the end of April. This was an increase of 0.7 p.c. from March 1966 and 4.2 p.c. from April 1965 (comparisons exclude above-mentioned Semi-Staff employees).

Monthly payrolls aggregated \$166.3 million, up 4.1 p.c. from March and up \$19.3 million or 13.2 p.c. from April 1965. Payrolls for the first four months of 1966 totalled \$643.8 million, a gain of \$72.1 million or 12.6 p.c. over the same four months of 1965 (comparisons exclude above-mentioned Semi-Staff payroll).

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Commencing in this issue, payroll by province is given for Agency and Proprietary Corporations and Other Agencies.

Little change occurred during April in either the number of employees or payrolls of this group. Employment increased by 1,200 or 0.9 p.c. to 137.4 thousand while total payrolls decreased \$956 thousand or 1.4 p.c. to \$66.4 million.

Payrolls of Atomic Energy of Canada, Canadian Broadcasting Corporation, Canadian National Railways and St. Lawrence Seaway Authority were lower while the National Harbours Board had the most significant increase (seasonal factor), with smaller gains occurring in several other corporations.

April 1966 employment was up 2.6 p.c. from that of April 1965 while payroll rose 6.0 p.c.

Cumulative payroll January 1 to April 30, 1966 was \$263.4 million, compared to \$246.7 million for the same period of 1965. This represents a 6.8 p.c. payroll increase.

April 1966

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

In this part of the publication, 4,602 Semi-Staff Post Office employees are included for the first time. This increased the numbers and payroll of the Post Office Department and the function "Other: Post Office", as well as totals for Tables 3A to 9 inclusive. The comparisons of statistics given below exclude these staff.

Employment in Departments and Departmental Corporations numbered 218.5 thousand at the end of April 1966, an increase of 0.6 p.c. over the preceeding month and 5.3 p.c. over April 1965 (percentage comparisons exclude above-mentioned Semi-Staff employees).

Total departmental payroll was \$99.9 million in April 1966, up \$7.5 million or 8.2 p.c. from March 1966 and \$15.5 million or 18.7 p.c. from April 1965. Approximately 10,700 professional employees received retroactive pay increases amounting to \$3.8 million during the month. The payments, retroactive to July 1, 1965, followed interim pay adjustments reported in the January 1966 publication (comparisons exclude above-mentioned Semi-Staff payroll).

Cumulative payroll January 1 to April 30 totalled \$380.4 million in the 1966 period, an increase of 17.1 p.c. or \$55.3 million over the same period of 1965 (comparison excludes above-mentioned Semi-Staff employees and payroll).

Changes occurring in the January 1966 and February 1966 editions of this publication account for some of the departmental reorganizations announced by the Prime Minister in a press release dated December 18, 1965. Several other changes were effective January 1st but insufficient detail was available prior to this publication date to adjust the tables. Not all details of position transfers have been completed to date. The table below lists, (1) those variations which appeared in the January and February issues (indicated by an * in the last column), and (2) those changes incorporated into the body of the tables for the first time in this issue. They do not necessarily represent increases or decreases of staff in the overall government body and they may or may not entail a change in function.

(1) Includes overtime payments to field parties on the East Coast. Excludes overtime payments (\$52,239 to Prevailing Rate employees and \$85,165 to Ships' employees on strength between April 1 and December 31, 1965) to members of field parties in other regions.

(2) Includes payments to:

- (a) Prevailing Rate, Casual and Ships' employees of the entire department, and
- (b) Salaried employees of Defence Research Board.

First quarter, 1966

Comments:

A comparison of hiring and separation rates of the first quarter 1966 with those of the fourth quarter 1965 and the first quarter 1965, indicates a few noteworthy variations. Hirings in the Department of Finance were high with staff added to the Program Analysis Branch and the Central Data Processing Service Bureau. Fisheries Department had seasonal layoffs plus an unusually high number of resignations, retirements, etc. Acquisition of staff continued high in the Department of National Health and Welfare; as in the prior quarter additions were made generally and not to any particular departmental program.

Notes and Definitions:

This table is published four times a year, in January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined in this issue on page 47). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

April 1966

PART C - EXPLANATORY NOTESSECTION 1 - INTRODUCTIONHistory

These statistics are derived through a monthly survey of Government of Canada employment and have been published since April 1952. The monthly report has had three different titles. From April 1952 to August 1953 it was known as "Government of Canada Employment and Payrolls". In the period September 1953 to March 1954 the title was "Federal Government Employment and Payrolls" and since April 1954 the name has been "Federal Government Employment". The monthly series replaces one formerly issued annually under several different titles, the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title was changed to "Summary Statistics of the Civil Service of Canada" and such reports were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title became "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

Presentation

This monthly report is composed of three parts. INTRODUCTION summarizes (in Table 1) data on all persons employed by the Federal Government and its agencies. PART A presents (in Table 2) employment data of agency and proprietary corporations and other agencies by province. A list of these appears on page 38. PART B consists of Tables 3 to 11 which present statistics relating to the departmental branches, services and corporations listed in the Financial Administration Act plus a few which are not listed therein. Data on these are detailed in the table of contents on page 3. A table on numbers and rates of hirings and separations for salaried employees is included quarterly.

Comparability with Former Survey

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the payrolls of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups, there were substantial differences between departments in the types of employees and payrolls included in the annual series.

The present series which commenced in April 1952 includes employees not formerly counted in the publications as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

Extent of Coverage

Includes: Departments (including deputy ministers) and departmental crown corporations
Proprietary and Agency Crown Corporations and other agencies
Members of Boards, Commissions and other government organizations, who serve on a full time basis with salaries fixed accordingly.
Royal Canadian Mounted Police

Excludes: Governor General and Lieutenant-Governors
Members of Parliament and Senators
Ministers of the Crown
Mines and Technical Surveys: field parties
Post Office: employees paid from Postal Revenues
(but including employees of Semi-Staff Post Offices)
Justice: judges

Comparability between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparisons between the numbers of employees reported and the payrolls reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed frequently occur during a month, it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

Uses of these Statistics

Users of the statistics fall into four main categories. These are:

1. Those who wish to use summary data and identify government as an employer. In this category are included those persons who wish to relate the significance of government as an employer to business in general.
2. Persons interested in an analysis of the administrative structure of the Federal Government. These, in the main, include government departments themselves. The administrative analyses of data as presented in tables 8 and 9 of the publication permit a comparison between the number of staff employed as reported in the publication and the number of positions established for each administrative branch of the government as published in the annual Estimates of Canada. This is, of course, mainly an administrative use which is of value to the Treasury Board and to the Civil Service Commission as well as the various government departments. A further administrative use of the data is to determine the significance of the labour input factor through an analysis of wage costs as a proportion of total expenditures by vote or other administrative unit.
3. Persons wishing to make a comparison between the Federal Government and other levels of government or between the Federal Government now and in past years do so through the use of the function analysis which is described further commencing on page 40.
4. The final group of users are those who are interested in government as an employer in each of the principal industries. For this purpose the data must be analysed on a Standard Industrial Classification basis. This analysis, to date, has not been undertaken but it is intended that it should be in the near future. The application of this analysis to the Federal Government and following afterwards to the provincial and municipal governments will permit the assessment of the degree to which governments and their corporations have become significant employers in each industry.

Besides federal government officers, users include persons and firms undertaking labour research on behalf of industry, provincial and municipal governments, university research officers, business firms and private citizens. In addition, a substantial number of enquiries originate in the House of Commons and the press.

A description of the sources of data and the means by which the information is submitted and prepared for use is contained in the following outline.

SECTION 2 - DESCRIPTION OF THE TABLESINTRODUCTION - TOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 assembles employees belonging within the following categories:

- (A) Agency and proprietary corporations and other agencies:
 - (1) agency corporations
 - (2) proprietary corporations
 - (3) other agencies

Table 1 assembles employees belonging within the following categories - Concluded

(B) Departments and departmental corporations:

- (1) departments, branches and services
- (2) departmental corporations

The first three record as gross payrolls all monies paid to the employees covered while the later two combine overtime payrolls and retroactive payments reported with regular payrolls to obtain gross payrolls.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: (1) directly from the corporation or agency; (2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Gross payrolls are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

Agency Corporations

Atomic Energy of Canada Ltd.	National Battlefields Commission
Canadian Arsenals Ltd.	National Capital Commission
Centennial Commission(1)	National Harbours Board
Crown Assets Disposal Corp.	Northern Canada Power Commission
Defence Construction (1951) Ltd.	

Proprietary Corporations

Air Canada	Export Credits Insurance Corp.
Canadian Broadcasting Corporation	Farm Credit Corporation
Canadian National Railways	Northern Transportation Company Ltd.
Canadian Overseas Telecommunication Corp.	Polymer Corporation Ltd.
Central Mortgage and Housing Corp.	St. Lawrence Seaway Authority
Eldorado Aviation Ltd.	The Seaway International Bridge Corp. Ltd.
Eldorado Mining and Refining Ltd.	

Other Agencies

Atlantic Development Board	Canadian Corporation for the 1967 World Exhibition
Bank of Canada	Office of the Custodian
Canadian Wheat Board	
Industrial Development Bank	

(1) Excludes the National Conference on Canada's Centennial, which is not an agent of Her Majesty nor part of the Public Service, but draws on the staff of the Centennial Commission.

The agency and proprietary corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 47 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed or defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS (TABLES 3 TO 11)Salaried Employees

Salaried employees used in this report mean all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary.

The basic data is recorded in two ways:

(1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated in the next paragraph). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes in the appropriate month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular payrolls, being based on the annual salary rates of employees on strength at the month's end, will not necessarily equal the actual amounts paid in salaries during the month. These factors do not seriously affect the validity of the statistics.

(2) By group of employees:

No individual position records are maintained for the remainder of salaried employees in departmental branches, services and corporations. Statistics on these employees are collected by means of forms or statements giving: the staff strength at the end of the month, regular payrolls for the month, including amounts paid to those off-strength at the end of the month, retroactive payments and overtime payments. The following report in this manner:

- Atomic Energy Control Board
- Defence Research and Development
- Economic Council of Canada
- Fisheries Research Board of Canada
- Municipal Development and Loan Board
- National Film Board
- National Research Council including the Medical Research Council
- Office of the Representation Commissioner
- Post Office (part-time employees; employees paid from Postal Revenues)
- Royal Canadian Mounted Police (Force)
- Royal Commissions

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

Non-salaried Employees

Statistics on non-salaried employees (prevailing rate, casuals and others) including ships' officers and crews in departmental branches, services and corporations are collected, in all cases, by means of forms or statements. These summary reports based on payroll and other records indicate the staff strength, regular payrolls, retroactive payments and overtime payments. Casual "locally-engaged" employees are also reported by this means. The ships' officers, which are in fact salaried employees, are included in the non-salaried group owing to their special treatment under the Financial Administration Act.

Departmental Corporations

The Departmental Crown Corporations fall under Schedule B of the Financial Administration Act, see the Glossary for definitions. The following lists the Departmental Corporations included in the tables on Departments and Departmental Corporations.

Agricultural Stabilization Board
Atomic Energy Control Board
Canadian Maritime Commission
Director of Soldier Settlement
The Director, The Veterans' Land Act
Dominion Coal Board
Economic Council of Canada
Fisheries Prices Support Board
Municipal Development and Loan Board
National Gallery of Canada
National Research Council
Unemployment Insurance Commission

Hirings and Separations of Salaried Employees

Data on hirings and separations of salaried employees was first published in the Federal Government Employment report for December 1959 and covered the quarter October 1 to December 31, 1959. This table, included in the monthly report once each quarter, records hiring and separation averages and rates by department. "Department", as defined for use in hiring and separation statistics only, means a department, a departmental branch or departmental service which has a separately administered personnel office. For this reason, organizations such as the Fisheries Research Board which is included under a departmental heading (Fisheries) in the main tables are accorded separate departmental status in the table on staff turnover.

Each "department" is considered for purposes of turnover statistics as a separate employing agency. Consequently, movements of personnel between "departments" are treated in the same way as movements into and out of the government service. The aggregate hirings and separations are summed up in "Total - all Departments". It should be noted, therefore, that hiring and separation data for the entire Government of Canada as an employer cannot be secured from this table. The difference between this and the "Total - all Departments" would equal the number of inter-departmental movements which are, in fact, relatively few.

It should also be noted that the totals shown in this table differ from hiring and separation data published by the Civil Service Commission of Canada. The latter organization treats all staff employed under the authority of the Civil Service Act as a complete unit and consequently is concerned only with movements into and out of "Act" employment. The Commission therefore is not concerned with inter-departmental movements of employees but on the other hand is concerned with movements of staff to and from "Act" employment even when such movements occur within a department.

The glossary of terms on page 47 should be referred to for definitions of certain terms used in the table on hirings and separations. These terms are:

1. Average employment (p. 48, item 22)
2. Monthly average (as pertains to hirings and separations) (p. 48, item 23)
3. Monthly rate per 1,000 employees (as pertains to hirings and separations) (p. 48, item 24).

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees. The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates.

CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 6 and 7 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishments which occur from time to time in each government and between governments.

This analysis is useful in three ways. First it permits a detailed study of employment of the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government, it is possible to develop a statistical series which, with minor exceptions, is consistent over an extended period of time. Second, since differences in administrative establishments are eliminated, it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of governments.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Governments Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function.

GLOSSARY OF PRINCIPAL TERMS USED

1. Department: Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. "Department": As used in the quarterly table on hirings and separations, the usual term department is broadened to include branches or services having a separately administered personnel office. The reason for this is because movements to and from these "departments" constitute hirings and separations.
3. Crown corporation: A corporation which is ultimately accountable, through a Minister to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act in Schedule B as departmental corporations, in Schedule C as agency corporations and in Schedule D as proprietary corporations.
4. Departmental corporation: A crown corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
5. Agency corporation: A Crown corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
6. Proprietary corporation: A Crown corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of, or dealing in, goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
7. Other agencies: These are organizations which are not listed in the Financial Administration Act as departments or departmental agency or proprietary Crown corporations but are, nevertheless, organizations of the Federal Government. Because of their nature, they have been classed with agency and proprietary Crown corporations.
8. Salaried employee: An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departments and departmental corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
9. Prevailing rate employee: A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are subject to the Prevailing Rate Employees General Regulations (Financial Administration Act). They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
10. Ships' officer: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are subject to the Ships' Officers Regulations (Financial Administration Act). They are occupants of positions established by the Treasury Board, these positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
11. Ships' crew employee: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are subject to the Ships' Crew Regulations (Financial Administration Act). These employees are occupants of positions established by the Treasury Board, these positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.

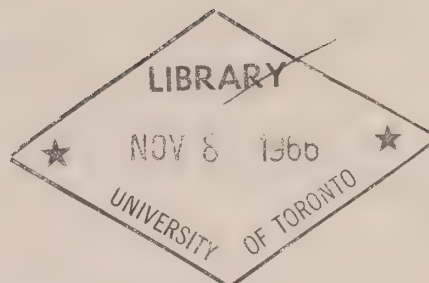

12. Casual and other employees: All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
13. Locally-Engaged employees: These are residents of foreign countries, employed by the Government of Canada to perform duties in the country in which they live. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees occupy positions: (1) as Assistants; (2) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc. While most are salaried, some are employed on a casual basis. The term "locally-engaged" excludes Canadian employees posted abroad.
14. Regular payroll - The basic wage and salary payments to employees during a specified period of time, excluding types mentioned below, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".
15. Payrolls: For agency and proprietary corporations and other agencies this term means gross payments, including overtime, retroactive pay and other special payments in addition to regular payrolls. For departments and departmental corporations, these are limited to regular payrolls plus overtime and retroactive pay.
16. Retroactive payments: Payments covering adjustments applicable to prior months resulting from salary increases. Data are included in the month during which the payments are made even though the adjustments may cover several months.
17. Overtime payments: Payments for work done beyond the normal working hours. Data are included in the month during which the payments are made even though the payments may cover overtime worked during previous months.
18. Administrative classification: This is an analysis of the departments and departmental corporations to provide statistical detail on their principal units i.e. branches, boards, commissions, etc. These principal units cover most of those identified in the annual Estimates of Canada.
19. Classification by function: The classification by function reflects the purpose served by the various Services of the Government. Its purpose is to afford comparability of data over a number of years and with other levels of governments without the complicating factor of periodical structural changes of departments and the differences of structures of other levels of governments. For further details, see page 37.
20. Hiring: The initial appointment of a person to the reporting "department" whether as a new employee in the Government Service or by transfer from another "department". Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include branches or services having a separately administered personnel office.
21. Separation: The termination of service of an employee in the reporting "department" by leaving the Government Service or by transfer to another "department". Movements within a "department" are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include branches or services having a separately administered personnel office.
22. Average employment: As used in the table on hirings and separations represents the mean monthly average number of employees in each "department" during the quarter.
23. Monthly average (as pertains to hirings and separations): represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
24. Monthly rate per 1,000 employees (as pertains to hirings and separations); the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1,000}{\text{average employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

MAY 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION:

Federal Government employees, including those of corporations and agencies but excluding the armed forces, numbered 360.6 thousand on the last working day of May 1966. This represented increases of 4.6 thousand (1.3 p.c.) over April and 15.4 thousand (4.5 p.c.) over May 1965.

Gross payrolls amounted to \$166.9 million, \$0.6 million (0.4 p.c.) above April and \$18.0 million (12.1 p.c.) higher than for the previous May.

Cumulative payrolls for the period January 1 to May 31, 1966 were \$810.7 million compared to \$719.4 million for the same five-month period of 1965, an increase of 12.7 p.c. Combined payrolls of April and May were \$333.2 million in 1966 and \$294.6 million in 1965.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

Employees in this group totalled 141.7 thousand in May, 3.1 p.c. greater than April (137.4 thousand) and 2.1 p.c. over the previous year (138.7 thousand).

Total payrolls for the month were \$71.8 million, 8.1 p.c. more than for April and 7.6 p.c. above the May 1965 payroll.

The Canadian Corporation for the 1967 World Fair registered gains over April of 7.3 p.c. in employment and 9.8 p.c. in payroll. Increases have been continuing over the past year as opening day of the fair approaches; employment of this month was 67.8 p.c. over May 1965 and payroll was 75.4 p.c. greater. Payroll of National Harbours Board increased 14.2 p.c. over April. Air Canada paid its employees 34.3 p.c. more in May than April due to a semi-annual salary adjustment amounting to one week's pay.

Payroll for the first five months of 1966 aggregated \$335.2 million, an increase of 6.9 p.c. over the comparable payroll of 1965 (\$313.4 million)

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

In this group staff strength was 218.9 thousand at the end of May. This was virtually the same as April 1966 and 12.5 thousand or 6.0 p.c. greater than May 1965.

A comparison of the function analyses of employment for April and May revealed these noteworthy changes:

Transportation and Communications - (1) "Highways, Roads and Bridges": 249 or 37.6 p.c. over April, accounted for by an increase of 212 casuals in the Department of Public Works within the administrative unit "Northwest Highway System". (2) "Waterways": a seasonal gain in employment of 410 or 6.2 p.c., in the Departments of Mines and Technical Surveys, Public Works and Transport.

Health and Social Welfare - (1) "Medical, Dental and Allied Services": consists of 194 employees formerly included under the function "Public Health".

Social Welfare - (1) "Other Social Welfare": down 501 or 14.7 p.c., occurring in Saskatchewan and British Columbia, in the Indian Affairs Branch of Northern Affairs and National Resources.

Recreational and Cultural Services - (1) "Parks, Beaches and Other Recreational Areas": down 120 or 7.7 p.c.

Education - (1) "Indian and Eskimo Schools and Schools in N.W.T.": down 134 or 12.6 p.c., -106 in Ontario and -128 in Manitoba.

Natural Resources and Primary Industries - (1) "Fish and Game": a seasonal increase in casuals of 383 or 14.7 p.c. as fishery guardians were taken on-strength in the Department of Fisheries. (2) "Forests": a seasonal increase in casuals of 122 or 10.3 p.c. in the Department of Forestry. (3) "Minerals and Mines": up 157 casuals or 11.2 p.c., summer students hired in the Mines Branch of the Department of Mines and Technical Surveys. (4) "Other": up 295 or 13.8 p.c., attributable to the hiring of summer students as casuals.

Gross payrolls were down \$4.7 million or 4.7 p.c. from April to \$95.1 million but were up \$13.0 million or 15.8 p.c. from May 1965. The April report included \$4.1 million in retroactive payments, whereas this report includes only a minor amount of retroactive pay. This is the main difference in total payrolls of the two months.

Cumulative payroll for the period January 1 to May 31 was \$475.6 million in 1966, greater by 17.1 p.c. than the \$406.0 million payroll for the same period in 1965.

FEDERAL GOVERNMENT EMPLOYMENT

JUNE 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1966.

INTRODUCTION:

Civilian employment in the Public Service increased from 360,565 in May to 367,093 (+ 1.8 p.c.) at the end of June 1966. Payrolls were up from \$166.9 million for May to \$168.8 million for June, an increase of 1.1 p.c. In June 1965, there were 349,622 employees earning \$148.4 million, thus there were year-to-year increases of 5.0 p.c. and 13.7 p.c. respectively.

Cumulative payrolls for January - June were \$979.5 million, 12.9 p.c. above the same period of 1965. For the first three-months of the fiscal year (April - June) payrolls amounted to \$502.0 million, compared to \$443.0 million for the first quarter of 1965-66.

June 1966

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES:

At the end of June staff strength totalled 145,242 employees and payroll for the month amounted to \$71.6 million. Changes from May included, an increase of 3,597 (2.5 p.c.) in staff and a payroll decrease of \$170.0 thousand (0.2 p.c.). Respective changes from June 1965 were plus 4,288 employees (3.0 p.c.) and plus \$6.1 million (9.3 p.c.).

A number of activities in fields such as transportation and construction required either additional staff, or a considerable increase in the number of hours worked with a corresponding increase in the payrolls. In mid-June the National Harbours Board's 39-day strike ended and their month closed showing the usual number of employees. In addition to seasonal activities, holiday grants to employees on vacation and retroactive payments were higher than normal.

Air Canada pays its employees on a fortnightly basis. This means that the Company reports two pay periods for ten months of each year, while the remaining two months contain three. As a result of the extra pay period May payroll was greater than June.

Cumulative payrolls for the first six months of 1966 were \$406.8 million, up 7.3 p.c. from 1965. For the period April to June, payrolls amounted to \$209.9 million, compared to \$195.0 million for the same three months of 1965-66.

PART B - DEPARTMENTS AND DEPARTMENTAL BRANCHES:

Employment in this group at 221,851 was 2,931 (1.3 p.c.) above May and 13,183 (6.3 p.c.) more than for June 1965. The greatest increase, 2,046 (69.8 p.c. of the total gain), was in "Casuals and Others" reflecting the employment of students for summer projects.

Gross payrolls were up \$2.0 million to \$97.2 million, slightly above the previous month and 14.8 p.c. more than a year ago. This rise resulted mainly from retroactive payments of \$1.5 million to certain classes of technical employees.

Aggregate payrolls for the first six months of 1966 amounted to \$572.7 million, 17.2 p.c. more than for 1965. For the April 1 - June 30 quarter payrolls totalled \$292.1 million compared to \$248.0 million for April to June, 1965.

This section of the publication reports a transfer of approximately 1,570 salaried employees from Citizenship and Immigration to Northern Affairs and National Resources. This included the Indian Affairs Branch in its entirety, plus a few employees from Departmental Administration.

A function analysis of employment between May and June revealed these changes: (1) "Other": - Civil Defence": an increase of casual employees in the Emergency Planning Division of Public Works. (2) "International Co-operation and Assistance": External Aid Office required additional salaried and casual employees to handle the unusually large number of foreign students entering Canada on Fellowships and Scholarships. The initial welfare and training of these students is the direct responsibility of this Branch. (3) "Natural Resources and Primary Industries - Forests": Forestry shows an increase of 393 (29.8 p.c.) casual employees - which is a May seasonal gain but due to late reporting the increase appeared in this issue.

FEDERAL GOVERNMENT EMPLOYMENT

JULY 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

Total civilian employment in the Federal Public Service at the end of July 1966 was 372.9 thousand, an increase of 6.3 thousand (1.7 p.c.) over June and 17.0 thousand (4.8 p.c.) greater than in July 1965.

The monthly payroll at \$172.0 million was \$3.2 million (1.9 p.c.) above the June payroll and 12.2 p.c. greater than the previous July.

Cumulative payrolls for the first seven months of 1966 totalled \$1.15 billion (12.8 p.c.) greater than in the same period of 1965. In four months of the current fiscal year, (April 1 - July 31) payrolls amounted to \$674.0 million, 13.0 p.c. above the same months of 1965-66.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Staff strength of this group totalled 149 thousand employees at the end of July 1966, 3.8 thousand (2.6 p.c.) more than the previous month, and 5.1 thousand (3.5 p.c.) above July 1965. Total payroll for the month amounted to \$74.4 million, an increase of \$2.8 million (3.8 p.c.) from June and \$5.8 million (8.4 p.c.) over the previous year.

Of the \$2.8 million payroll increase over June, approximately one-third was attributable to retroactive increases which in some instances, dated back to October 1965.

Cumulative payroll for January 1 to July 31, 1966 was \$481.2 million, up \$33.6 million (7.5 p.c.) from 1965. Payrolls for the first four months of the 1966-67 fiscal year amounted to \$284.3 million, \$20.6 million more than the same four months of 1965-66.

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

Employment in this group, at 223.8 thousand, was up 2.5 thousand (1.1 p.c.) from June and 11.9 thousand (5.6 p.c.) from July 1965. Almost half of the June-July 1966 increase was due to additional "casuals" engaged for the summer.

Gross payroll for the month amounted to \$97.6 million, 0.5 p.c. higher than in June, and 15.3 p.c. above July a year ago.

Cumulative payrolls for the period January 1 to July 31, totalled \$670.3 million, an increase of 16.9 p.c. compared to the same period of 1965. For the first four months of the fiscal year, payrolls amounted to \$389.8 million, up 17.2 p.c. from the June-July period, 1965-66.

A function analysis of employment between June and July shows most variations to be of a seasonal nature. The exception appears under "Water Resources" (Natural Resources and Primary Industries) where there has been a marked increase since June. This follows the transfer of the "Water Resources" Division from the Department of Northern Affairs and National Resources to the Department of Mines and Technical Surveys, where its Division title became "Research and Investigation on Water Resources". The function of this Division has broadened in scope thereby requiring substantially more staff.

Second quarter, 1966

Comments

An extensive reorganization of the government service was announced in December 1965 by the Prime Minister. This has been gradually implemented with the result that many units of organization have been moved from one department to another. Such movements, which reflect administrative reorganization are not reflected in Table 11 which is intended to present the results of "normal" accessions and leaving of staff.

A comparison of hiring and separation rates for the second quarter 1966, with those of the first quarter indicates a few noteworthy variations.

(1) Dominion Bureau of Statistics - hirings continued to increase due to the 1966 Quinquennial Census. The hiring of additional staff for the 1966 population census began during the fourth quarter of 1965, eased slightly in the first quarter of this year, and increased noticeably through the second quarter. The Census was taken on June 1.

(2) Fisheries - hirings by the main Department and Fisheries Research Board increased as the new season commenced.

(3) National Revenue - Taxation - hirings are high, additional Taxation officers were taken on, in preparation for the next "Tax" year.

Notes and Definitions

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined in the April, 1965, publication). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

FEDERAL GOVERNMENT EMPLOYMENT

AUGUST 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

Total Federal Government employment increased from 372.9 thousand in July to 376.7 thousand at the end of August 1966. Payrolls were up 2.5 p.c. from \$172.0 million to \$176.3 million. In August 1965, there were 357.3 thousand employees earning \$153.3 million, indicating yearly increases of 5.4 p.c. and 15.0 p.c. respectively.

Cummulative payrolls for the eight months, January - August 1966, totalled \$1,328 million, 13.1 p.c. above the same eight months of 1965. For the first five months of the current fiscal year, payrolls amounted to \$850.4 million, 13.4 p.c. higher than the April-August 1965 period.

August 1966

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Employment in this group increased slightly over July to 149.5 thousand at the end of August and was 4.9 thousand (3.4 p.c.) higher than in August 1965. Payrolls for the month amounted to \$68.2 million, \$6.2 million (8.3 p.c.) below the previous month but slightly above August 1965.

The strike of Canadian National Railways clerks during August, was the main cause of the payroll decrease. Another factor was the inclusion, in the July report, of considerable amounts as retroactive pay. The effect of the decrease was somewhat lessened by:

- (a) increased seasonal employment by National Harbours Board.
- (b) a pay increase, including retroactive payments, to employees of the Canadian Broadcasting Corporation, plus
- (c) a \$150 thousand "incentive" bonus paid to employees of Northern Transportation Company.

Cumulative payrolls for the first eight months of 1966 were \$549.4 million, 6.5 p.c. above the \$515.8 million paid for the equivalent period in 1965.

Payrolls for the period April - August, amounted to \$352.5 million, 6.2 p.c. more than the same five months of 1965.

(1) In addition approximately 250 employees are included in other provinces.

August 1966

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Staff strength in this group, at 227.2 thousand, was up 3.3 thousand (1.5 p.c.) from July and 14.5 thousand (6.8 p.c.) from August 1965. The year-to-year increase is due largely to improved administrative facilities coincident with a major reorganization of the departments of government which began in December 1965. In addition, the inclusion of Semi-staff employees of the Post Office department (formerly footnoted but not included in the main tables) caused an increase of some 6 thousand employees. The increase is most noticeable among salaried employees where 12.1 thousand of the above 14.5 thousand are shown.

Gross payroll for the month amounted to \$108.1 million, up 11.1 p.c. from July and 27.1 p.c. above August 1965. The payroll includes retroactive payments of \$8.5 million to approximately 41.7 thousand salaried employees in the Administrative Support Group (mainly clerks, typists, office equipment operators, etc.), and total overtime payments amounting to \$2.3 million.

Aggregate payroll for the eight month period totalled \$778.5 million, 18.2 p.c. more than the same period of 1965. For the first five months of the fiscal year, payrolls amounted to \$497.9 million, compared to \$417.8 million for the period April - August, 1965.

The creation of the Department of Manpower and Immigration resulted in a number of changes in function. Employees formerly shown in "Universities, Colleges and Other Schools" (line 6, page 12) are now included in "National Employment Service" (line 26, page 10). Some personnel previously recorded under "Immigration and Citizenship" (line 19, page 12) are now included in "Labour" (line 25, page 10). In addition both "National Employment Service" and "Labour" functions have been increased through the establishment of new positions. Other changes were mainly seasonal in nature. Until the major reorganization of departments has been completed and more detail is available, there will be considerable difficulty in producing meaningful comparisons on a function basis.

FEDERAL GOVERNMENT EMPLOYMENT

SEPTEMBER 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

Civilian staff of the Federal Public Service decreased by 4.4 thousand ~~and~~ (1.2 p.c.) from 376.4 thousand in August 1966 to 372.0 thousand in September, but increased 17.8 thousand (5.0 p.c.) from the September 1965 staff strength of 354.2 thousand.

The September 1966 total payroll of \$169.7 million was \$6.6 million (3.8 p.c.) less than the August total, and \$5.0 million (2.8 p.c.) below the September 1965 figure. For further comment regarding this variation see Part B, page 7.

For the period January 1 to September 30, 1966 the cumulative payroll amounted to \$1,498 million, up 11.1 p.c. from the \$1,349 million payroll of 1965. Aggregate payroll for the period April 1 to September 30, was \$1,020 million in 1966, an increase of \$95.8 million over the equivalent period of 1965.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

At the end of September staff strength totalled 146.1 thousand employees with payroll for the month amounting to \$69.2 million. Changes from August included a decrease of 3.1 thousand (2.1 p.c.) in staff and a payroll increase of \$0.9 million (1.4 p.c.). Variations from September 1965 were an increase of 3.0 thousand employees (2.1 p.c.) and \$2.0 million (2.9 p.c.) in payrolls.

Cumulative payroll for January 1 to September 30 was \$618.6 million, compared to \$583.0 million for the same nine months of 1965. Payroll for the period April to September of the 1966-67 fiscal year amounted to \$421.6 million, \$22.6 million above the 1965-66 period.

(1) In addition approximately 250 employees are included in other provinces.

September 1966

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

Employees of this group totalled 225.9 thousand at the end of September 1966, down slightly (less than 1 p.c.) from August. This month-to-month decrease is due to the release of a) students, in summer employment, and b) the completion of summer projects. Employment rose 14.8 thousand (7.0 p.c.) from September 1965.

Gross payroll for the month was \$100.6 million, a decrease of \$7.6 million (7.0 p.c.) from August, and \$6.9 million (6.4 p.c.) less than September 1965. The August payroll included \$10.9 million in retroactive and overtime payments, while the September 1965 payroll included retroactive pay amounting to \$19.5 million to postal employees, technicians, craftsmen, hospital staffs (ward aides, etc.).

Cumulative payrolls, January 1 to September 30, 1966 were \$879.0 million, an increase of \$113.0 million (14.7 p.c.) over the same nine months of 1965. The April to September payroll was \$598.4 million, \$73.2 million (13.9 p.c.) above that period of 1965.

Minor variations appear in the analysis of employment by function. The seasonal drop in casual employment mentioned in the first paragraph was the main cause of decreases in: "Transportation and Communications-"Highways, Roads and Bridges" and "Natural Resources and Primary Industries-Minerals and Mines".

OCTOBER 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

At the end of October 1966 there were 365.9 thousand employees in the Federal Public Service who earned a total of \$187.8 million. This represented an employee decrease of 6.1 thousand (1.6 p.c.) since September, and a payroll increase of \$18.1 million (10.7 p.c.). Compared to October 1965 there was an increase of 18.4 thousand (5.3 p.c.) and \$33.8 million (22.0 p.c.) respectively.

Payrolls from January through October 1966, amounted to \$1,685 million up \$182 million (12.1 p.c.) from the same period of 1965. In the first seven months of the 1966-67 fiscal year, cumulative payrolls totalled \$1,208 million, 12.0 p.c. above the same seven months of 1965-66.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

There were 143.8 thousand employees in these organizations at the end of October 1966, a decrease of 2.3 thousand (1.6 p.c.) from September but 4.7 thousand (3.4 p.c.) above October 1965.

Total payroll for the month amounted to \$88.2 million, an increase of \$19.0 million (27.5 p.c.) from September and \$22.0 million (32.4 p.c.) above the previous October.

A month-to-month comparison indicates a seasonal employee decrease accompanied by a \$19.0 million payroll increase. Of this amount, \$16.4 million was due to a 4 p.c. pay increase to two different groups of Canadian National Railways employees. The increases were effective January 1, 1966 for one group and June 1 for the second while the total amount of the retroactive pay was reported in October. Overtime and shift premium payments amounting to \$2.6 million to Air Canada employees accounted for the balance.

Cumulative payroll for the ten months, January to October 1966 was \$706.7 million, 8.8 p.c. above the same months of 1965. Payrolls for the period April to October amounted to \$509.8 million, compared to \$465.6 million for the same seven months of 1965.

(1) In addition, 244 employees are included in other provinces.

October 1966

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

Employment in this group, Departments and Departmental Corporations, numbered 222.1 thousand at the end of October 1966. This was 3.8 thousand, (1.7 p.c.) below the previous month, but up 13.7 thousand, (6.6 p.c.) from October 1965.

The employee increase, which was a gradual one through the year, occurred mainly in the following departments: National Health and Welfare - where both Health and Welfare Services were expanded; National Revenue - by expansion of the Taxation Division; Post Office - by (1) the inclusion of Semi-Staff employees who were previously "footnoted", (2) a number of new Revenue Post Offices were established in each province; and Transport - particularly in the "Marine" and "Air" Services.

Veterans' Affairs reported a marked decrease in staff, due largely to the transfer of Sunnybrook Hospital to the jurisdiction of the University of Toronto.

Total October payroll at \$99.6 million was down slightly from September 1966, but \$12.3 million (14.0 p.c.) above October 1965.

Cumulative payrolls for the period January 1 to October 31, amounted to \$978.6 million, 14.7 p.c. higher than the same ten months of 1965. Aggregate payrolls April through October was \$698.1 million, 14.0 p.c. above the same period of 1965.

A function analysis of employment between September and October indicated a 13.6 p.c. decrease in the number of 'casuals' employed in the Yukon Territories under "Highways, Roads and Bridges" due to weather conditions at that time. With official recognition of the new department "Manpower and Immigration" October 1, 1966, "Social Welfare - National Employment Service" was combined with "Social Welfare - Labour". Under "Other - Civil Defence" there was a 10.2 p.c. decrease among casuals, following completion of a building project in B.C.

Effective October 1, 1966 the Government announced a number of changes in departmental organization under the "Government Organization Act, 1966". The following table shows that generally speaking, these changes are purely administrative. In one case (Manpower and Immigration) the changes affected functions as indicated below.

Department	Nature of change	Function affected
Energy, Mines and Resources	Formerly Department of Mines and Technical Surveys.	no change
Finance	"Central Data Processing Service Bureau" transferred from "Administration" Dept. of Finance, to the new department, "Treasury Board".	no change

Third quarter, 1966

Comments

Most of the variations in this quarter are seasonal. However, the departmental reorganization which began in December, 1965 has continued with marked effect on some Departments. Those showing the greatest variations, for whatever reason, are shown below:

Department	Variations (Hirings and Separations)	Reason
Citizenship and Immigration	Both hirings and separations were high.	Reflects the beginning and ending of "Teachers" contracts. Although the Indian Affairs Branch was transferred to N.A. & N.R. early in 1966, the complete change-over was not accomplished for some months. In addition, new positions were created, and filled, for the new department of Manpower and Immigration which was not officially recognized until Oct.1/66.
Dominion Bureau of Statistics	Increased hirings	The Quinquennial Census began June 1/66, requiring additional staff over a twelve month period.
Royal Canadian Mint	Increased separations	The release of staff engaged earlier, to handle an increased work load.
Fisheries Research Board	Increased separations	One Ontario Research station closed plus a staff decrease at some B.C. Stations.
Mines and Technical Surveys	Increased hirings	Re-organization of the Department, which resulted in the creation of new positions.
Post Office	Increased hirings	Re-organization of the Department, and the opening of additional Staff offices in each province.
Privy Council	Ratios for hirings and separations unusually low.	During the quarter under review, employees of: (1) Combines Investigation Act Administration were transferred to Privy Council from Justice. In addition, (2) Patent and Copyright Divisions were transferred from Secretary of State to Privy Council, adding considerably to the total number of employees. This lessened the effect of the few hirings and separations that occurred.
Secretary of State	Ratios high	The re-organization transfer mentioned in (2) above, plus the transfer of the Corporations Branch to the Registrar General, thereby decreasing the total number of employees.
Trade & Commerce	Increase hirings	Re-organization of the Transcribing and Typing Services, which was previously one unit, became five.

Notes and Definitions

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined on page 48 in the April, 1966, publication). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

FEDERAL GOVERNMENT EMPLOYMENT

NOVEMBER 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

Total employment in the federal Public Service decreased slightly during November 1966 to 365,855 employees from 365,911 at the end of October, but remained 5.7 p.c. above the total for November 1965.

The November total payroll amounted to \$177.3 million, a decrease of \$10.5 million (5.6 p.c.) from the previous month, but an increase of \$21.5 million (13.8 p.c.) over November 1965. Comment will be made regarding this payroll variation in the text for "Agency and Proprietary Corporations and Other Agencies".

Aggregate payrolls for January - November amounted to \$1,863 million, \$203.9 million (12.3 p.c.) above the same period of 1965. April to November payrolls totalled \$1,385 million, \$151.2 million (12.2 p.c.) more than the same eight months of the 1965-66 fiscal year.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Employment in this group decreased slightly during November 1966, to 143.1 thousand from 143.8 thousand at the end of October. Payrolls for the month decreased 15.4 p.c. to \$74.6 million from \$88.2 million the previous month.

This payroll decrease is misleading, as the main reason for the October increase was the inclusion of retroactive pay (effective January 1 and April 1, 1966) to certain Canadian National Railways employees. The November payroll includes pay increases granted by several Corporations, and the attendant retroactive payments but they are not sufficiently large to equal those of the previous month.

Cumulative payrolls for the period January 1 to November 30, 1966 amounted to \$781.3 million, compared to \$717.4 million for the same eleven months of 1965 or an increase of 8.9%. Payrolls for the eight months of the 1966-67 fiscal year totalled \$584.4 million, 9.6 p.c. above the first eight months of 1965-66.

November 1966

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

In this issue we include, for the first time, approximately 1,600 casual employees of the Royal Canadian Mounted Police. The inclusion of this group will be noted in the function tables, under "Protection of Persons and Property - Police Protection", as well as in the administrative detail.

Employees of this group totalled 222.8 thousand at the end of November, slightly above October and 14.2 thousand (6.8 p.c.) more than in November 1965. Total payroll for the month amounted to \$102.7 million, \$3.1 million (3.1 per cent) more than the previous month, and \$14.8 million (16.8 p.c.) above November 1965. The month-to-month increase was due to a slightly higher regular payroll, resulting from the employee increase, plus higher overtime payments for the month.

Cumulative payrolls for the period January 1 to November 30, 1966 were \$1,081 million, 14.9 p.c. greater than the same eleven months of 1965. The April - November payroll amounted to \$800.8 million, 14.3 p.c. above the first 8 months of the 1965-66 fiscal year.

Further analysis of employment by function indicates a few noteworthy variations, even though of a seasonal nature. There was a decrease in employment of 12.0 p.c. for "Transportation and Communications -- Highways, Roads and Bridges", particularly in the Yukon and Northwest Territories. "Social Welfare -- Aid to Unemployed Employables" showed a staff increase due to casual employees engaged at the beginning of the expected period of higher unemployment for 1966-67. "Public Service and Trading Enterprises" also show a decrease (13.0 p.c.) with the closing of the grain shipping season.

Table 10 - Overtime Payments Reported. Due to circumstances beyond our control, November overtime is not available. Therefore, with the exception of the Post Office Department, Dominion Bureau of Statistics, and the Department of National Defence, all figures shown are computed averages, based on the previous month and November 1965.

FEDERAL GOVERNMENT EMPLOYMENT

DECEMBER 1966

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April, 1966.

INTRODUCTION

Civilian staff of the Federal Public Service dropped to 363.7 thousand at the end of December 1966 from 365.9 thousand in November, while the total payroll increased to \$184.9 million, \$7.6 million above the November payroll. For comment regarding this increase see Part B, page 7. A comparison with December 1965 indicates employment and payroll increases of 19.0 thousand and \$30.0 million, respectively.

Cumulative payroll for the 1966 calendar year amounted to \$2,048 million, \$233.9 million more than the 1965 payroll. Approximately 5 per cent of this annual increase of \$234 million is attributable to a gradual growth of the government structure, while the balance is due to salary revisions within the year.

For the nine months of the 1966-67 fiscal year, aggregate payrolls amounted to \$1,570 million, \$181.2 million above the same nine months of 1965-66.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Total December 1966 employment (142.4 thousand) and payrolls (\$75.4 million) of this group changed slightly from November. The month-to-month comparison indicates a staff decrease of 0.5 per cent from 143.1 thousand, but a payroll increase of 1.1 per cent from \$74.6 million. The year-to-year comparison shows an employment increase of 4.2 per cent and payrolls 13.0 per cent above December 1965.

Cumulative payroll for the 1966 calendar year amounted to \$856.8 million, 9.3 per cent above the 1965 total of \$784.2 million. For the nine months of this fiscal year, cumulative payrolls totalled \$659.9 million, 9.9 per cent higher than the same period of 1965-66.

December 1966

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

A slight decrease occurred in the staff strength of these organizations during the month to 221.3 thousand employees. But over the year total staff increased 6.4 per cent, from 208.1 thousand.

The regular payroll for the month increased 0.9 per cent to \$100.2 million, whereas the total payroll was up 6.6 per cent to \$109.5 million from November, and 24.2 per cent above December a year ago. This increase was due mainly to the inclusion of retroactive pay increases, covering extended periods of time and amounting to approximately \$5.6 million, to salaried employees of the Royal Canadian Mounted Police and to certain other salaried employees of the Public Service.

Payroll for the calendar year was \$1,191 million in 1966, compared to \$1,030 million for 1965. Accumulative payrolls for the nine months of the 1966-67 fiscal year show an increase of 15.4 per cent to \$910.3 million, from \$788.7 million for the same months of 1965-66.

Practically all of the variations, noted in an analysis of employment by function, are of a seasonal nature. The departments (and branches) most affected, and all of which report staff decreases, are: Agriculture (Canadian Government Elevators): Fisheries (Fisheries Management and Development): Indian Affairs and Northern Development (National Parks), and Public Works (Harbours and Rivers Engineering Service and Roads, Bridges and Other Engineering Services).

FEDERAL GOVERNMENT EMPLOYMENT

JANUARY 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

Civilian employment in the Public Service increased to 365.4 thousand (0.5 p.c.) at the end of January 1967, from 363.7 thousand in December 1966, at the same time payrolls decreased to \$182.1 million (1.5 p.c.) from \$184.9 million for December. In January 1966 employees totalled 344.7 thousand and payrolls amounted to \$165.5 million, indicating year-to-year increases of 6.0 p.c. and 10.1 p.c. respectively.

Payrolls aggregated \$1,752.3 million from April 1, 1966 to January 31, 1967 and \$1,554.4 million for the same months of 1965-66, representing an increase of 12.7 p.c.

January 1967

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The employment and payroll for the above group increased slightly during January to 143 thousand employees with a payroll of \$76.4 million. A provincial, month-to-month, comparison of the numbers of employees shows that, of the ten provinces, Nova Scotia, New Brunswick and Ontario recorded staff increases, whereas on the payroll side, Quebec alone reported a decrease. In a comparison of January 1966 to January 1967 substantial increases are indicated: staff strength was up by 7 thousand (5.2 p.c.) from 136 thousand and payrolls increased \$10.4 million (11.7 p.c.) from \$66.0 million for January 1966. With few exceptions, increases were shown by all Crown corporations and agencies.

Aggregate payroll, April 1966 to January 1967 amounted to \$736.3 million, compared to \$666.3 million for the same ten-month period of the 1965-66 fiscal year.

January 1967

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

Staff strength of these organizations was 222.4 thousand at the end of January 1967, slightly above the December employment (1 thousand) and 6.6 p.c. (13.7 thousand) more than in January 1966. Total payroll for the month was \$105.7 million, down 3.5 p.c. (\$3.6 million) from December 1966, but 6.3 p.c. higher than the previous January.

Cumulative payrolls for April 1, 196⁶ - January 31, 1967 were \$1,016 million, a gain of 14.4 p.c. (\$127.8 million) over the same ten months of the 1965-66 fiscal year. A function analysis shows a few minor variations, all of a seasonal nature.

(1) Excludes overtime payments to field parties (\$46,111 to Prevailing Rate employees and \$104,761 to Ships' employees on strength for varying periods between January 1 and December 31, 1966) of Energy, Mines and Resources. Overtime payments to field parties on the East Coast are included here.

(2) Includes overtime payments to:

- (a) Prevailing Rate, Casual and Ships' employees of the entire department, and
- (b) Salaried employees of Defence Research Board.

Fourth quarter, 1966

Comments:

On October 1, 1966 the "Government Organization Act 1966" was proclaimed in force. It was reported in the summary for the third quarter that some of the changes that are authorized by the Act had already taken place.

The above Act sets up various Departments, and outlines their powers etc. as follows:

- (1) Department of the Solicitor General which shall have jurisdiction over:
 - (a) reformatories, prisons and penitentiaries,
 - (b) parole and remissions,
 - (c) the Royal Canadian Mounted Police.
- (2) Department of the Registrar General shall have jurisdiction over:
 - (a) combines, mergers, monopolies and restraint of trade,
 - (b) patents, copyrights and trade marks,
 - (c) bankruptcy and insolvency,
 - (d) corporate affairs.
- (3) Department of Manpower and Immigration shall have jurisdiction over:
 - (a) the development and utilization of Manpower resources in Canada,
 - (b) employment services,
 - (c) immigration.
- (4) Department of Indian Affairs and Northern Development shall have jurisdiction over:
 - (a) Indian Affairs,
 - (b) the Northwest Territories and the Yukon Territory and their resources and affairs,
 - (c) Eskimo affairs,
 - (d) National parks,
 - (e) National battlefields, historic sites and monuments,
 - (f) migratory birds and other wild life.
- (5) Department of Forestry and Rural Development, shall have jurisdiction over:
 - (a) all matters relating to forest resources not assigned to another department, etc. of the government,
 - (b) matters relating to rural development that are assigned to the Minister.
- (6) Department of Energy, Mines and Resources shall have jurisdiction over:
 - (a) energy, mines and minerals, water and other resources,
 - (b) explosives,
 - (c) technical surveys within the meaning of the "Resources and Technical Surveys Act".
- (7) The Treasury Board is set up as a Department.

As a result of the above reorganization, there were many changes of responsibility between departments, which led to increases and decreases of the staff of those departments. In our publications dated April and October, 1966, these changes are outlined.

Some notes on changes in staff strength in departments other than those that were reorganized is given below.

Civil Service Commission. - This shows a high monthly rate of hirings during the fourth quarter. This is due to the expansion of language training facilities that is being done.

Dominion Bureau of Statistics. - Continued to show a considerable staff turnover, resulting from the 1966 quinquennial census.

Royal Canadian Mint. - The decrease is due to the fact that the Mint has caught up with the demand for Minted sets of coins.

Fisheries. - Separations were high due to the release of "Fishery Wardens" at the end of the season. These are experienced employees who are hired each spring for a seven to nine month period, depending on the area they work in.

Forestry and Rural Development. - The build up is due to the reorganization, and increased programs.

Industry. - This department has been growing fairly steadily for some time.

Royal Commissions. - The separation rate is high due to a diminution of the activities of Royal Commissions that are at work.

The Secretary of State and the Treasury Board. - Have both been affected by the governments reorganization plans.

Veterans Affairs. - The marked number of separations is due to the transfer of the Sunnybrook Hospital to the University of Toronto.

Notes and Definitions

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined on page 48 in the April, 1966, publication). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

FEDERAL GOVERNMENT EMPLOYMENT

FEBRUARY 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966

INTRODUCTION

Total civilian employment in the Federal Public Service increased slightly during February 1967, (0.1 p.c.) to 365.8 thousand at the end of the month, from 365.4 in January. Payrolls, on the other hand, were down 0.9 p.c. to \$180.5 million from \$182.1 million for January, due to the smaller number of working day in the month. In February 1966 there were 346.1 thousand employees with a payroll of \$153.6 million.

The combined payrolls for the first two months of 1967 amounted to \$362.6 million, 13.6 p.c. above the same period of 1966. For the eleven months of the 1966-67 fiscal year, aggregate payrolls were \$1,933 million, 13.2 p.c. greater than for the period April 1, 1965 to February 28, 1966.

February 1967

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

In this Group employment in February 1967 decreased slightly (0.6 per cent) from January. Total payrolls for the month decreased \$1.9 million (2.4 per cent) to \$74.6 million compared to \$76.4 million for January. The payroll decrease was due to the fact that hourly rate employees, who form a considerable portion of the total employment of some Crown Corporations, worked fewer hours during February which is a short month. Quebec was the only province to show an increase in both employees and payroll.

A comparison with February 1966 shows a staff increase of 6.4 thousand (4.7 per cent) from 135.8 thousand, and payrolls up \$11.1 million (17.5 per cent) from \$63.5 million.

Cumulative payroll for the eleven months of the 1966-67 fiscal year amounted to \$810.9 million, \$81.1 million (11.1 per cent) higher than the same months of 1965-66.

The Atlantic Development Board which, for purposes of the Financial Administration Act, was originally designated as a Crown Corporation and, as such included in this Table, has now been changed to a Departmental Corporation. Therefore, beginning with this issue, statistics covering the Atlantic Development Board are included in Table 1 - Part B, and Tables 3 to 10 inclusive.

February 1967

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

A slight increase occurred in the staff strength of these organizations during the month to 223.5 thousand employees. But, over the year total staff increased 6.4 p.c., from 210.2 thousand. A group-by-group analysis shows the greatest changes occurred in the "Salaried" and "Casual and Others" groups. Most of this change (increase) however is accounted for by a more complete current coverage.

Total payrolls for February, at \$105.9 million, were slightly above the January figure, and \$15.8 million (17.5 p.c.) above February 1966.

Combined payrolls for the first two months of 1967 amounted to \$211.6 million, up 11.6 p.c. from that of 1966. Cumulative payroll for the period April 1966 to February 1967 was \$1,122 million, \$143.6 million greater than for the same eleven months of 1965-66.

A function analysis of February employment shows little change, although the departmental detail indicates a few variations. The most notable are: (a) "Taxation Division" of National Revenue where there were 1,000 additional casuals engaged to process the 1966 Income Tax returns. (b) The Unemployment Insurance Commission decreased their casual staff earlier than usual because the requests for "Seasonal Benefits" were fewer than anticipated. And (c) Veterans Affairs "Treatment Services" show a decrease of approximately 300 salaried employees as the transfer of Sunnybrook Hospital staff, begun in December 1966 continues. The University of Toronto now operates and maintains this hospital.

FEDERAL GOVERNMENT EMPLOYMENT

MARCH 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1966.

INTRODUCTION

Civilian staff of the Federal Public Service increased 1.1 p.c. to 369.6 thousand at the end of March 1967, from 365.8 thousand in February. During the same period payrolls went up 1.9 p.c. to \$183.9 million, from \$180.5 million. A comparison with February 1966 show increases of 6.0 p.c. from 348.9 thousand employees and 16.1 p.c. from a payroll of \$158.4 million.

Cumulative payrolls for the first three months of 1967 totalled \$546.6 million, compared to \$477.5 million for the same period of 1966. Payroll for the fiscal year, 1966-67, amounted to \$2,117 million, 13.4 p.c. above 1965-66 figures.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Employment in this group increased 2.1 thousand (1.4 p.c.) during March, 1967, to 144.3 thousand from 142.2 thousand at the end of February. Payrolls for the month were up \$3.8 million (5.2 p.c.) to \$78.4 million from \$74.6 million the previous month. Employee increases were reported for all provinces except Newfoundland, Prince Edward Island and Manitoba, whereas increased payrolls were reported for all provinces and territories and for Crown Corporations employees abroad. The increased monthly payrolls were due chiefly to the greater number of working days in March, as compared to February.

A year-to-year comparison indicates employment to be 5.9 p.c. higher than in March 1966, while payrolls are up 16.4 p.c.

Cumulative totals for the three month period January 1 to March 31, 1967 amounted to \$229.4 million, 16.5 p.c. higher than for the same period of 1966. Payrolls for the 1966-67 fiscal year totalled \$889.3 million, 11.6 p.c. above the 1965-66 fiscal year.

March 1967

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

Employees in this group numbered 225.3 thousand at the end of March 1967, up slightly (0.8 p.c.) from February and 6.0 p.c. above the March 1966 staff of 212.6 thousand. While the total payroll was down 0.4 p.c. from February, to \$105.5 million, it was an increase of 15.9 p.c. over the previous March. Although increases in the number of employees and the amount of payrolls were indicated by most provinces, Prince Edward Island and the Yukon and Northwest Territories reported decreases in both fields.

Aggregate payroll for the period January 1 to March 31 was up 13.0 p.c. to \$317.1 million from \$280.6 million for the same three months of 1966. The fiscal year payroll for this group amounted to \$1,227 million, compared to \$1,069 million for 1965-66.

Only minor variations are noted in both the functional and departmental detail, and these are of a seasonal nature.

FEDERAL GOVERNMENT EMPLOYMENT

APRIL 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in part C of this report.

INTRODUCTION

This issue of "Federal Government Employment" reflects changes effected by the 1967-68 Estimates. The changes, which are varied, will be noted with the necessary detail under the relevant headings.

Civilian employment within the Public Service totalled 373.4 thousand at the end of April 1967. This was 3.8 thousand (1.0 p.c.) above the March total and 17.5 thousand (4.9 p.c.) more than in April 1966. At the same time payrolls increased to \$190.3 million, \$6.4 million (3.5 p.c.) more than in March 1967, and \$24.0 million (14.4 p.c.) greater than in April 1966.

Aggregate payrolls for the first three months of 1967 amounted to \$736.8 million, compared to \$643.8 million for the same period in 1966.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in this group increased during April 1967 to 147.2 thousand, 2.9 thousand (2.0 p.c.) more than the March figure of 144.3 thousand employees.

Gross payroll for the month amounted to \$79.7 million, \$1.2 million (1.6 p.c.) above the March payroll of \$78.4 million. Comparable figures for April 1966 were 137.4 thousand employees with earnings of \$66.4 million.

The Canadian Dairy Commission, established early this year is included in this publication for the first time, under Agency Corporations.

All crown corporations, with one or two minor exceptions, recorded increased employment. The two showing the greatest increases were the Canadian National Railways and the Canadian Corporation for the 1967 World Exhibition. The employment distribution by province indicated increases in all provinces except Newfoundland and New Brunswick, with the largest increase reported by Quebec.

Aggregate payroll January 1 to April 30, 1967 amounted to \$309.1 million, \$45.7 million (17.4 p.c.) over the first four months of 1966.

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

This issue reflects the administrative structure as indicated by the 1967-68 Estimates. Immediately following these comments is a table listing the structural changes and indicating the department, and the old and new branch or division.

At the end of April 1967, employees in Departments and Departmental Corporations numbered 226.2 thousand with a total payroll of \$110.6 million. This represented an increase over the previous month, of 0.38 p.c. in personnel and 4.8 p.c. in payrolls. Comparable figures for April 1966 were 218.5 thousand employees and a payroll of \$99.9 million.

The cumulative payrolls for the period January 1 to April 30, 1967 totalled \$427.7 million, 12.4 p.c. greater than for the same period in 1966.

An analysis by function indicates considerable variation from March. Some of these changes are of a seasonal nature, others are organizational. The following comments are made in relation to the more significant items:

1. The function "General Government-Research, Planning and Statistics" indicates an increase of casual employees over the number on strength at the end of March. These were Dominion Bureau of Statistics enumerators who usually complete their projects prior to the last working day of the month. The monthly projects during the month of April were not completed prior to the month-end.
2. A new function "General Government-Other" appears in this issue to reflect employment statistics with respect to the Public Service Staff Relations Board. The Pay Research Bureau is now attached to the Public Service Staff Relations Board. Employment statistics with respect to this organization have previously been included under the heading "Civil Service Commission".
3. Public Works: Two groups of salaried employees, previously included under "Transportation and Communications - (a) Highways, Roads and Bridges, and (b) "Waterways" are now included under "General Government-Executive and Administrative". Detail required for a finer analysis is not available.
4. Health and Welfare: (a) "Health Insurance and Resources" now a separate branch, is included under "Health-General". It was previously a section of the branch Health Services and included under "Health - Hospital Care". Salaried employees only are affected by the change. (b) The function "Medical, Dental and Allied Services" is no longer in use, the salaried employees previously shown under that Group are now included under "Health - General". (c) The number of casual employees under "Other Social Welfare" has been increased by approximately 325 during April, to perform the additional work created by the Guaranteed Income Supplement Program.
5. Indian Affairs and Northern Development: An increase in the number of salaried employees is reflected under "Recreational and Cultural Services-Parks, Beaches and Other Recreational Areas" due to the up-dating of the Central Personnel Record System.
6. Labour: Personnel, all salaried, of the Administration of International Labour Affairs* Division, previously included under "Social Welfare - Labour", are now included under "Other-International Cooperation and Assistance".
7. Fisheries: The International Fisheries Service* is a new branch and is included under "Other-International Cooperation and Assistance". It includes salaried employees only.

*The functions from which these Branches were transferred were unaffected by the changes because the numbers in each Branch were few, and the function Groups are relatively large. However, the inclusion of the two organizations under the function group "International Cooperation and Assistance" is noticeable as this is one of the smaller Groups.

The table below lists changes which are incorporated in the publication for the first time. They do not necessarily represent increases or decreases of staff in the overall government body, neither do all changes entail a change in function. All changes were effective April 1, 1967.

(1) Includes overtime payments to Prevailing Rate and Casual employees of Defence Research Board.

First quarter, 1967

Comments:

An analysis of hirings and separations among salaried employees for the first three months of 1967 shows few variations worthy of comment.

In general, the major re-organization began the previous year had been effected, and the employment pattern was more or less steady. Exceptions were the:

(1) Civil Service Commission which shows staff increases. At the time the department was in the midst of a re-organization and a change of identity. The Public Service Employment Act, which introduced the Public Service Commission, was proclaimed in February, 1966. Changes in this department can be expected to continue into the next quarterly Hirings and Separations Summary when the Public Service Staff Relations Board was established.

(2) Fisheries Research Board where a staff decrease is indicated. The drop in employment results from a change of category and could be considered as a paper transfer. Seasonal employees, hired each year for a definite period not exceeding one year, were previously classified by Fisheries Research Board as "salaried". Beginning April 1, 1967 these employees were classified as "Casuals". Therefore, the March "separations" are actually transfers and these members will be reported in future as "Casual" employees and, as such, are not included in this Summary.

(3) Justice, where hirings appear high. This is a result of the government's decision to transfer the Legal Divisions of other departments to Justice. Action to achieve this transfer began in the quarter under review.

(4) Veterans Affairs where separations remain high, although slightly below the last quarter of 1966. This reflects the gradual separation of Sunnybrook Hospital employees as Federal employees, to be absorbed into the new organization under the Province of Ontario and Toronto University.

Notes and Definitions:

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by *). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined on page 52 of this issue. Movements within a "department" are not considered as hirings unless they represent a change of category, i.e. from "prevailing rate" or "casual" to the salaried group.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations unless they represent a change of category, i.e., to "prevailing rate" or "casual" from the salaried group.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

April 1967

PART C - EXPLANATORY NOTESSECTION 1 - INTRODUCTIONHistory

These statistics are derived through a monthly survey of Government of Canada employment and have been published since April 1952. The monthly report has had three different titles. From April 1952 to August 1953 it was known as "Government of Canada Employment and Payrolls". In the period September 1953 to March 1954 the title was "Federal Government Employment and Payrolls" and since April 1954 the name has been "Federal Government Employment". The monthly series replaces one formerly issued annually under several different titles, the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title was changed to "Summary Statistics of the Civil Service of Canada" and such reports were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title became "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

Presentation

This monthly report is composed of three parts. INTRODUCTION (Table 1) summarizes data on all persons employed by the Federal Government and its agencies. PART A (Table 2) presents employment data of agency and proprietary corporations and other agencies by province. A list of these appears on page 42. PART B consists of Tables 3 to 11 which present statistics relating to the departments and departmental corporations listed in the Financial Administration Act plus "Legislation", that is, employees of the Senate, House of Commons and Library of Parliament. Data on these are detailed in the table of contents on page 3. A table on numbers and rates of hirings and separations for salaried employees is included quarterly.

Comparability with Former Survey

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the payrolls of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups, there were substantial differences between departments in the types of employees and payrolls included in the annual series.

The present series which commenced in April 1952 includes employees not formerly counted in the publications as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

With the proclamation of the Public Service Employment Act in February 1967 the Public Service Commission was created and the Civil Service Commission no longer existed. Under the new Act its terms of reference were broadened to give it jurisdiction over the operational category which includes prevailing rate classes.

Extent of Coverage

Includes: Departments (including deputy ministers and ministers' Staffs) and departmental corporations.
Proprietary and Agency Corporations and other agencies
Members of Boards, Commissions and other government organizations, who serve on a full time basis with salaries fixed accordingly.
Royal Canadian Mounted Police (uniformed and civilian members).

Extent of Coverage - ConcludedExcluded from the Tables but "footnoted" are the:

Governor General and Lieutenant-Governors
 Ministers of the Crown (including Parliamentary assistants)
 Speakers of the Senate and House of Commons
 Deputy Speaker of House of Commons
 Justice: Judges
 Post Office: certain employees paid from Postal Revenues.

Excludes: Members of Parliament and Senators.

National Defence: members of the Armed Forces
 Canada Council and National Arts Centre
 International organizations, the expenses of which are shared by Canada
 Employees of firms under contract to the Government of Canada
 Officers of Boards, Commissions and other government organizations who are paid on a per diem basis or receive a nominal honorarium for their services.
 Opposition leaders of the Senate and House of Commons

Comparability between Numbers and Earnings

The user of these statistics is advised to avoid making direct comparisons between the numbers of employees reported and the payrolls reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, considerable fluctuations in numbers employed frequently occur during a month, it will be seen that a comparison between the payrolls of all persons employed during the month and the number on strength at the end of the month would, in many cases, not be valid.

Users of these Statistics

Users of the statistics fall into four main categories. These are:

1. Those who wish to use summary data and identify government as an employer. In this category are included those persons who wish to relate the significance of government as an employer to business in general.
2. Persons interested in an analysis of the administrative structure of the Federal Government. These, in the main, include government departments themselves. The administrative analyses of data as presented in tables 8 and 9 of the publication permit a comparison between the number of staff employed as reported in the publication and the number of positions established for each administrative branch of the government as published in the annual Estimates of Canada. This is, of course, mainly an administrative use which is of value to the Treasury Board and to the Public Service Commission as well as the various government departments. A further administrative use of the data is to determine the significance of the labour input factor through an analysis of wage costs as a proportion of total expenditures by vote or other administrative unit.
3. Persons wishing to make a comparison between the Federal Government and other levels of government or between the Federal Government now and in past years do so through the use of the function analysis which is described further commencing on page 45.
4. The final group of users are those who are interested in government as an employer in each of the principal industries. For this purpose the data must be analysed on a Standard Industrial Classification basis. This analysis, to date, has not been undertaken but it is intended that it should be in the near future. The application of this analysis to the Federal Government and following afterwards to the provincial and municipal governments will permit the assessment of the degree to which governments and their corporations have become significant employers in each industry.

Besides federal government officers, users include persons and firms undertaking labour research on behalf of industry, provincial and municipal governments, university research officers, business firms and private citizens. In addition, a substantial number of enquiries originate in the House of Commons and the press.

A description of the sources of data and the means by which the information is submitted and prepared for use is contained in the following outline.

SECTION 2 - DESCRIPTION OF THE TABLESINTRODUCTION - TOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 assembles employees belonging within the following categories:

(A) Agency and proprietary corporations and other agencies:

- (1) agency corporations
- (2) proprietary corporations
- (3) other agencies

(B) Departments and departmental corporations:

- (1) departments, branches and services
- (2) departmental corporations

The first three record as gross payrolls all monies paid to the employees covered while the later two combine overtime payrolls and retroactive payments reported with regular payrolls to obtain gross payrolls.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: (1) directly from the corporation or agency; (2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Gross payrolls are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

Agency Corporations

Atomic Energy of Canada Ltd.
Canadian Arsenals Ltd.
Canadian Dairy Commission
Canadian Livestock Feed Board
Centennial Commission(1)
Crown Assets Disposal Corp.
Defence Construction (1951) Ltd.

(1) Excludes the National Conference on Canada's Centennial, which is not an agent of Her Majesty nor part of the Public Service, but draws on the staff of the Centennial Commission.

The agency and proprietary corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 51 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed or defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS (TABLES 3 TO 11)

Salaried Employees

Salaried employees used in this report mean all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary.

The basic data is recorded in two ways:

(1) By employee:

Individual position records are maintained for the majority of salaried positions in the departments and departmental corporations of the Government of Canada (the remainder will be treated in the next paragraph). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes in the appropriate month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular payrolls, being based on the annual salary rates of employees on strength at the month's end, will not necessarily equal the actual amounts paid in salaries during the month. These factors do not seriously affect the validity of the statistics.

(2) By group of employees:

No individual position records are maintained for the remainder of salaried employees in departments and departmental corporations. Statistics on these employees are collected by means of reports giving: the staff strength at the end of the month, regular payrolls for the month, including amounts paid to those off-strength at the end of the month, retroactive payments and overtime payments. The following report in this manner:

Atlantic Development Board
Atomic Energy Control Board
Defence Research and Development
Economic Council of Canada
Fisheries Research Board of Canada
Municipal Development and Loan Board
National Film Board
National Research Council including the Medical Research Council
Office of the Representation Commissioner
Post Office (part-time employees; employees paid from Postal Revenues)
Royal Canadian Mounted Police (Force)
Royal Commissions

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

Non-salaried Employees

Statistics on non-salaried employees (prevailing rate, casuals and others) including ships' officers and crews in departments and departmental corporations are collected, in all cases, by means of reports. These summary reports based on payroll and other records indicate the staff strength, regular payrolls, retroactive payments and overtime payments. Casual "locally-engaged" employees are also reported by this means. The ships' officers, which are in fact salaried employees, are included in the non-salaried group owing to their special treatment under the Financial Administration Act.

Departmental Corporations

The Departmental Crown Corporations fall under Schedule B of the Financial Administration Act, see the Glossary for definitions. The following lists the Departmental Corporations included in the tables on Departments and Departmental Corporations.

Agricultural Stabilization Board
Atlantic Development Board
Atomic Energy Control Board
Director of Soldier Settlement
The Director, The Veterans' Land Act
Dominion Coal Board
Economic Council of Canada
Fisheries Prices Support Board
Municipal Development and Loan Board
National Gallery of Canada
National Research Council
Unemployment Insurance Commission

Hirings and Separations of Salaried Employees

Data on hirings and separations of salaried employees was first published in the Federal Government Employment report for December 1959 and covered the quarter October 1 to December 31, 1959. This table, included in the monthly report once each quarter, records hiring and separation averages and rates by department. "Department", as defined for use in hiring and separation statistics only, means a department, a departmental branch or departmental service which has a separately administered personnel office. For this reason, organizations such as the Fisheries Research Board which is included under a departmental heading (Fisheries) in the main tables are accorded separate departmental status in the table on staff turnover.

Each "department" is considered for purposes of turnover statistics as a separate employing agency. Consequently, movements of personnel between "departments" are treated in the same way as movements into and out of the government service. The aggregate hirings and separations are summed up in "Total - all Departments". It should be noted, therefore, that hiring and separation data for the entire Government of Canada as an employer cannot be secured from this table. The difference between this and the "Total - all Departments" would equal the number of inter-departmental movements which are, in fact, relatively few.

It should also be noted that the totals shown in this table differ from hiring and separation data published by the Public Service Commission of Canada. The latter organization treats all staff employed under the authority of the Public Service Employment Act as a complete unit and consequently is concerned only with movements into and out of "Act" employment. The Commission therefore is not concerned with inter-departmental movements of employees but on the other hand is concerned with movements of staff to and from "Act" employment even when such movements occur within a department.

The glossary of terms on page 51 should be referred to for definitions of certain terms used in the table on hirings and separations. These terms are:

1. Average employment (p. 52, item 22)
2. Monthly average (as pertains to hirings and separations) (p. 52, item 23)
3. Monthly rate per 1,000 employees (as pertains to hirings and separations) (p. 52, item 24).

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees. The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates.

CLASSIFICATION BY FUNCTION

The statistics of departments and departmental corporations are classified in tables 6 and 7 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishments which occur from time to time in each government and between governments.

This analysis is useful in three ways. First it permits a detailed study of employment of the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government, it is possible to develop a statistical series which, with minor exceptions, is consistent over an extended period of time. Second, since differences in administrative establishments are eliminated, it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of governments.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Governments Division of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function.

GLOSSARY OF PRINCIPAL TERMS USED

1. Department: Departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. "Department": As used in the quarterly table on hirings and separation, is broadened to include branches or services having a separately administered personnel office. The reason for this is because movements to and from these "departments" constitute hirings and separations.
3. Crown corporation: A corporation which is ultimately accountable, through a Minister to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act in Schedule B as departmental corporations, in Schedule C as agency corporations and in Schedule D as proprietary corporations.
4. Departmental corporation: A crown corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
5. Agency corporation: A Crown corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
6. Proprietary corporation: A Crown corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of, or dealing in, goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
7. Other agencies: These are organizations which are not listed in the Financial Administration Act as departments or departmental agency or proprietary Crown corporations but are, nevertheless, organizations of the Federal Government. Because of their nature, they have been classed with agency and proprietary Crown corporations.
8. Salaried employee: An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departments and departmental corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
9. Prevailing rate employee: A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are subject to the Prevailing Rate Employees General Regulations (Financial Administration Act). They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
10. Ships' officer: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are subject to the Ships' Officers Regulations (Financial Administration Act). They are occupants of positions established by the Treasury Board, these positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
11. Ships' crew employee: A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of, Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are subject to the Ships' Crew Regulations (Financial Administration Act). These employees are occupants of positions established by the Treasury Board, these positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.

12. Casual and other employees: All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
13. Locally-Engaged employees: These are residents of foreign countries, employed by the Government of Canada to perform duties in the country in which they live. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees occupy positions: (1) as Assistants; (2) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc. While most are salaried, some are employed on a casual basis. The term "locally-engaged" excludes Canadian employees posted abroad.
14. Regular payroll - The basic wage and salary payments to employees during a specified period of time, excluding types mentioned below, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".
15. Payrolls: For agency and proprietary corporations and other agencies this term means gross payments, including overtime, retroactive pay and other special payments in addition to regular payrolls. For departments and departmental corporations, these are limited to regular payrolls plus overtime and retroactive pay.
16. Retroactive payments: Payments covering adjustments applicable to prior months resulting from salary increases. Data are included in the month during which the payments are made even though the adjustments may cover several months.
17. Overtime payments: Payments for work done beyond the normal working hours. Data are included in the month during which the payments are made even though the payments may cover overtime worked during previous months.
18. Administrative classification: This is an analysis of the departments and departmental corporations to provide statistical detail on their principal units i.e. branches, boards, commissions, etc. These principal units cover most of those identified in the annual Estimates of Canada.
19. Classification by function: The classification by function reflects the purpose served by the various Services of the Government. Its purpose is to afford comparability of data over a number of years and with other levels of governments without the complicating factor of periodical structural changes of departments and the differences of structures of other levels of governments. For further details, see page 45.
20. Hiring: The initial appointment of a person to the reporting "department" whether as a new employee in the Government Service or by transfer from another "department". Movements within a department are not considered as hirings. For purposes of hirings and separations only, the term "department" as used above is broadened to include branches or services having a separately administered personnel office.
21. Separation: The termination of service of an employee in the reporting "department" by leaving the Government Service or by transfer to another "department". Movements within a "department" are not considered as separations. For purposes of hirings and separations only, the term "department" as used above is broadened to include branches or services having a separately administered personnel office.
22. Average employment: As used in the table on hirings and separations represents the mean monthly average number of employees in each "department" during the quarter.
23. Monthly average (as it pertains to hirings and separations): represents the arithmetic mean i.e. one third of the actual hirings and separations for the quarter.
24. Monthly rate per 1,000 employees (as it pertains to hirings and separations); the rate is computed by the following formula:

$$\frac{\text{monthly average (number hired or separated)} \times 1,000}{\text{average employment (during quarter)}}$$

FEDERAL GOVERNMENT EMPLOYMENT

MAY 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1967.

INTRODUCTION

Federal Government employees, including those of corporations and agencies but excluding the armed forces, numbered 383.5 thousand on the last working day of May 1967. This represented increases of 10.0 thousand (2.7 p.c.) over April and 22.9 thousand (6.3 p.c.) over May 1966.

Gross payrolls amounted to \$190.1 million, slightly less than for April, but \$23.2 million (13.9 p.c.) above the figure for May 1966.

Cumulative payrolls for the period January 1, to May 31, 1967 were \$927.0 million, compared to \$810.7 million for the same five-month period of 1966, an increase of 14.3 p.c.

May 1967

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

There were 153.3 thousand employees in this group at the end of May 1967, 4.1 p.c. above April and 8.2 p.c. greater than for May 1966. Total payroll for the month, at \$82.4 million, represented an increase of 3.4 p.c. over April, and 14.7 p.c. above the figure for May 1966.

With the opening of "Expo 67" the highest per cent increases over the previous month (April), were reported by the Canadian Corporation for the 1967 World Exhibition, with increases of 86 p.c. and 68 p.c., respectively, in employment and payrolls. Other variations were seasonal, with increased activity indicated by Construction, Industry, Recreation and Transportation.

In an April-May comparison by area, most of the provinces and territories reported increased staffs and higher payrolls. Nova Scotia recorded the greatest decrease in employment, both in numbers and payroll.

Aggregate payroll for the first five months of 1967 amounted to \$391.5 million, compared to \$335.2 million at the end of May 1966.

May 1967

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

The number of employees in this Group increased by 1.8 p.c. during May 1967, to 230.2 thousand from 226.2 thousand at the end of April. During the same time total payrolls decreased 2.5 p.c. to \$107.8 million from \$110.6 million for the previous month. Comparable figures for May 1966 were 218.9 thousand employees with a total payroll of \$95.1 million.

Cumulative payrolls for the period January 1 to May 31, 1967 amounted to \$535.5 million, 12.6 p.c. greater than the same period of 1966.

All provinces and territories show staff increases, with the greatest being in British Columbia and the Yukon and Northwest Territories. A functional analysis reveals that 65 p.c. of the additional employees were students engaged as "Casual" employees for summer projects. The more notable changes are identified in the following paragraph by department and type of service rendered.

Under the group, "Transportation and Communications-Highways, Roads and Bridges", Public Works reported an increase of casual employees. Under the function group "Natural Resources and Primary Industries", three departments: Energy, Mines and Resources, Fisheries, and Forestry and Rural Development recorded a total increase of approximately 2100 employees, of which 90 p.c. were Casuals, the remainder being Prevailing Rate employees. The group "Other-International Cooperation and Assistance" reported increased Salaried and Casual employees for summer projects instituted by External Aid, External Affairs.

FEDERAL GOVERNMENT EMPLOYMENT

June 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1967.

INTRODUCTION

Civilian employment in the Public Service increased from 383.5 thousand in May 1967 to 392.9 thousand (+ 2.5 p.c.) at the end of June. Payrolls were up from \$190.2 million for May to \$196.2 million for June, an increase of 3.2 p.c. In June 1966, there were 366.6 thousand employees earning \$168.8 million, thus there were year-to-year increases of 7.2 p.c. and 16.2 p.c. respectively.

Cumulative payrolls for January to June 1967 were \$1,123 million, 14.7 p.c. above the same period of 1966. Payrolls for the first three months of 1967-68, (April-June) amounted to \$576.6 million, compared to \$502.0 million for the first quarter of 1967-67.

FEDERAL GOVERNMENT EMPLOYMENT

June 1967

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Staff strength in this group totalled 159.5 thousand at the end of June 1967, 4.1 p.c. above the May figure and 9.8 p.c. higher than for June 1966. Gross payroll for the month amounted to \$85.7 million, \$3.3 million (4.0 p.c.) higher than for the previous month and 19.6 p.c. above the June 1966 payroll.

Increased employment was indicated by almost all organizations within this group. There were in addition, an increased number of special payments such as, Holiday, Overtime and Retroactive payments. Expo 67 reported the largest actual increase for the month.

The National Harbours Board and the Province of Nova Scotia figures indicated a noticeable decrease of employees and payroll, due to a two-week strike of Halifax dock workers.

The Canadian Livestock Feed Board, an agency corporation under the jurisdiction of the Department of Forestry and Rural Development, is included for the first time in this Publication. The staff is few in number and is located at its Head Office in Montreal.

Cumulative payrolls for the first six months of 1967 were \$477.1 million, up 17.3 p.c. from 1966. Payrolls for the first quarter of the 1967-68 fiscal year totalled \$247.7 million, 18.0 p.c. higher than for the same period in 1966-67.

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

At the end of June 1967 employment in this group, at 233.4 thousand, was 3,166 (1.4 p.c.) above May and 5.4 p.c. more than for June 1966. The greatest increase (76.7 p.c. of the total 3,166) was in "Casuals and Others", which reflected the employment of students for summer projects.

Employment variations by area, indicate increases in seven of the eleven provinces and territories. Small decreases occurred in three provinces, while in the Northwest Territories Statistics indicated a decrease of over 400 employees.

Gross Payrolls in June were up \$2.7 million to \$110.5 million, 2.5 p.c. above the previous month and 13.8 p.c. more than for June 1966.

Cumulative payrolls for the period January to June 1967 amounted to \$646.0 million, 12.8 p.c. more than for the same six months of 1966. Payrolls for the first three months of the fiscal year 1967-68, totalled \$328.9 million, compared to \$292.1 million for the period April-June of the previous fiscal year.

A comparison of the functional detail indicated several notable variations although they are, with one exception, seasonal. Under the group "Trade and Industrial Development", approximately 300 casual employees were reported by the Department of Trade and Commerce. These employees were not new to the Department, but had not previously been reported.

FEDERAL GOVERNMENT EMPLOYMENT

JULY 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1967.

INTRODUCTION

Federal Government employees, including those of corporations and agencies but excluding the armed forces, numbered 398.9 thousand at the end of July, 1967. This represented increases of 6.0 thousand (1.5 p.c.) over June and 26.0 thousand (7.0 p.c.) over July 1966.

Gross payrolls amounted to \$198.4 million, slightly higher than for June, but \$26.4 million (15.4 p.c.) above the figure for July of the previous year.

Cumulative payrolls for the period January 1 to July 31, 1967 at \$1,322 million, were 14.8 p.c. above the same seven-month period of 1966. Payrolls for the first four months of the current fiscal year totalled \$775.1 million, compared to \$674.0 million for the same four months of 1966-67.

Please note: The Central Personnel Records System is converting Federal employment data to a computer program. To facilitate the conversion program only three more issues of "Federal Government Employment" will be published for the remainder of the 1967-68 fiscal year. The next release will be based on conditions as at the end of September, 1967. December 1967 and March 1968 data will be issued as it becomes available.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

There were 162.7 thousand employees in this group at the end of July 1967, 2.0 p.c. above June and 9.4 p.c. greater than for July 1966. Total payroll for the month, at \$87.1 million, represented an increase of 1.7 p.c. over June, and 17.2 p.c. above the figure for July 1966.

Employment and payroll increases were reflected in all provinces and territories, except New Brunswick, where both the number employed and the total payroll were below the June figures.

Cumulative payrolls for January 1 to July 31, 1967 amounted to \$564.3 million, up 17.3 p.c. from 1966. Payrolls for the first four months of the 1967-68 fiscal year totalled \$334.8 million, 17.8 p.c. above that for the same period of 1966-67.

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

The number of employees in this Group increased by 1.2 p.c. during July 1967 to 236.2 thousand from 233.4 thousand at the end of June. During the month total payrolls increased slightly to \$111.3 million from \$110.5 million for the previous month. Comparable figures for July 1966 were 223.8 thousand employees and a total payroll of \$97.6 million. Staff increases were reported by two-thirds of the Departments, in all regions.

Cumulative payrolls for the seven-month period, January-July 1967, amounted to \$757.3 million, 13.0 p.c. greater than the same months of 1966. Payrolls for the first four months of the 1967-68 fiscal year totalled \$440.2 million, 13.0 p.c. above the figure for the 1966-67 period.

A functional analysis of the July employment indicates the greatest concentration of new employees is again under the "Casual" category, reflecting the hiring of students for summer projects. The functional variations are seasonal and all less than 10 p.c.

Second quarter, 1967

Comments

An analysis of hirings and separations among salaried employees for the second quarter of 1967 indicates a number of variations. In most instances they are seasonal changes such as occurred in the Departments of Agriculture and Forestry where "hirings" are high, due to the re-opening of Research stations or augmenting the present staffs to handle the increased volume of work. The Departments of Energy, Mines and Resources and Transport also re-engage personnel for numerous surveys and other projects dependant on summer weather conditions. Hirings by the Post Office appear high, reflecting the transfer of a considerable number of Semi-staff Offices to full "Operational" status. In each of the three months this affected from 150 to 300 employees.

The "Separation" ratios were higher than for hirings in the Departments of Justice, National Defence, National Health and Welfare, the Public Service Commission, the Unemployment Insurance Commission, and Veterans Affairs.

A comparison of this quarterly summary with the same quarter of 1966 shows many variations, chiefly due to the Governmental Re-Organization of October 1966, or to a re-organization within a department. Changes of these types were covered in the issue for the month in which they occurred.

Notes and Definitions

This table is published four times a year, in the January, April, July and October issues of this publication.

The table shows for the three month period, by department and sex:

- (a) Average employment
- (b) Monthly average (pertaining to hirings and separations)
- (c) Monthly rate per 1,000 employees (pertaining to hirings and separations)

Owing to the fact that relatively small changes in the staff of small departments can result in erratic fluctuations in the hiring and separation rates, such rates are not shown for "departments" with less than 100 employees (indicated by*). The average hired and separated, as well as the average employment, are shown for the use of any person wishing to calculate such rates. However, aggregates for these departments are given in "Total-Departments with less than 100 employees", as well as in "Total-All Departments".

The following definitions apply to this table:

1. "Hiring" means the appointment of a person to a salaried position (as defined on page 52 in the April, 1967, publication). Movements within a department are not considered as hirings.
2. "Separation" means the termination of service of an employee in the reporting "department" by leaving the Government Service or by transferring to another "department". Movements within a "department" are not considered as separations.
3. "Department", for this table only, is altered to include departmental branches or services having a separately administered personnel office.

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1967.

INTRODUCTION

As indicated in the July issue of "Federal Government Employment", this number (No. 9) is the first quarterly publication to be issued in the Series. This action has been taken to assist the Central Personnel Records System to produce federal employment data on a current basis. Publications for the December 1967 issue, and the March 1968 issue, will follow shortly.

Each issue will report the number of employees on staff strength at the end of that period. The payrolls as shown in Table 1 - Part A and Table 2 will be the actual payrolls reported monthly by the crown corporations, combined for the quarter.

In this issue only, the payrolls for the Prevailing Rate, Casual and Ships' employees are the actual monthly payrolls accumulated for the quarter. The Salaried payrolls as shown in Table 1 - Part B, and Table 3A and B are estimates, based on a monthly trend established as of April 30, 1967.

Total civilian employment in the Public Service increased slightly (0.6 p.c.) in September 1967 to 395.2 thousand from 392.9 thousand at the end of June. Payrolls were \$597.4 million for the period July - September, 1967, compared to \$576.6 million for the period April - June, representing a payroll increase of 3.6 p.c. Employment and payroll figures at the end of the July - September period 1966 were 372.0 thousand employees and \$518,045 million.

Cumulative payrolls for the period January to September 30, 1967 were \$1,721 million, 14.9 p.c. above the same nine months of 1966. Payrolls for the first six months of this fiscal year amounted to \$1,174 million, an increase of 15.1 p.c. on the same period of 1966-67.

July - September 1967

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Staff strength in this group totalled 159.1 thousand at the end of September, less than one-half percent below the June employment, but 8.9 p.c. above the September 1966 figure of 146.1 thousand. Gross payrolls for the period July - September 1967, which are the actual payrolls reported monthly but accumulated, amounted to \$260.8 million, an increase of \$13.7 million (5.3p.c.) over the April - June period and \$49.0 million (23.1 p.c.) greater than during July - September 1966.

The greatest quarter - to - quarter variations occurred in the group "Other Agencies" with the widest indicated by the Canadian Corporation for the 1967 World Exhibition. By the end of September their employment had decreased considerably, but the payroll for the period included payments to their July and August employees, which months might be termed the "peak" period for Expo 67. The Canadian Wheat Board also shows a high payroll with a reduced staff-due to the additional employees required for the July and August work load. At the end of September their staff had been reduced to one of the lowest of the year. To a certain degree the above cases apply to Table 2 as a whole. Additional employees are engaged by most corporations for summer projects. In addition, employees of several crown corporations received pay increases in July, together with retroactive pay for varying numbers of months, according to the effective date of the pay increase.

Cumulative payrolls for the first nine months of 1967 amounted to \$737.9 million, up \$119.4 million (19.3 p.c.) from the same period of 1966. A fiscal year comparison shows \$508.5 million for the first six-months of 1967-68, compared to \$421.6 million for the same period of 1966-67.

July - September 1967

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

In this portion of the Publication payroll data for salaried employees has been estimated. For the balance, prevailing rate, casual and ships' employees actual monthly payrolls were accumulated for the three months.

At the end of September 1967 employment in this group totalled 236.1 thousand, a slight increase 2.7 thousand (1.2 p. c.) above June, and 10.2 thousand (4.5 p.c.) more than at September 30, 1966. It will be remembered that the "Government Organization Act" which became effective October 1, 1966, created certain new Departments; additional positions were created to facilitate this development. A provincial comparison of federal employment at the ends of June and September indicated a slight increase for all Provinces and Territories, except Ontario and Manitoba where there were small decreases. A year-to-year comparison shows increases in each Province and Territory and by most of the Departments.

A functional comparison of data for the two periods, April - June and July - September indicated staff decreases, mainly in the "Casual" group as a result of the completion of summer projects. This is a trend most noticeable each September in the following functions:

<u>Functions affected</u>	<u>Department</u>
1. General Government - Research, Planning and Statistics	- Dominion Bureau of Statistics
2. Transportation and Communications - Highways, Roads and Bridges	- Public Works
3. Natural Resources and Primary Industries - Fish and Game	- Fisheries
- Forests	- Forestry and Rural Development
- Minerals and Mines	- Energy, Mines and Resources.

Note re Table 11. The quarterly summary of hirings and separations of salaried employees, by departments and departmental corporations, is not included in this issue. We do not expect the information to be available for the remainder of the 1967-68 fiscal year. It is anticipated that as soon as the detail necessary is available, the Quarterly Summary of Hirings and Separations will again become a part of "Federal Government Employment".

FEDERAL GOVERNMENT EMPLOYMENT

OCTOBER-DECEMBER 1967

NOTE

A complete description of the method of collection and the statistics included in this series is given, together with other background detail, in the report for April 1967.

INTRODUCTION

Civilian employment within the Public Service totalled 369.4 thousand at the end of December 1967. This was 6.5 p.c. below September but 1.6 p.c. above December 1966. Total payrolls for the last three months of the year amounted to \$584.3 million, opposed to \$597.4 million for the period July-September and \$550.1 million for the last three months of 1966. This represented variations of - 2.2 p.c. and + 6.2 p.c. respectively.

Cumulative payrolls for 1967 amounted to \$2,305 million, compared to \$2,048 million for 1966. Payrolls for the first nine months of the 1967-68 fiscal year were \$1,758 million, 12.0 p.c. above the same period of 1966-67.

Data related to the departmental salaried employees are again estimates, based on a monthly trend established as of April 30, 1967.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

In this Group there were 138.7 thousand employees at the end of December 1967, compared to 159.1 thousand in September and 142.4 thousand in December 1966. Total payrolls for the period October-December amounted to \$247.0 million, 5.3 p.c. below the previous three months, but 3.7 p.c. above the last three months of 1966.

Cumulative payrolls for 1967 amounted to \$985.0 million, for 1966 they totalled \$856.8 million. For the period April to December 1967 payrolls were \$755.5 million, compared to \$659.9 million for the same nine months of 1966.

The employment decrease between September and December is usual. However the release of approximately two-thirds of the Expo 67 Staff, plus a large decrease of Canadian National Railways employees resulted in an above average variation for the period. A year-to-year (1966/1967) comparison of employment by province indicated an employee decrease in every province but an increase in Yukon and the Northwest Territories. In the same period, payrolls increased throughout the country, except in Quebec. Approximately half the crown corporations reported a greater number of employees than for December 1966, but these increases were offset by the steady decrease in personnel by the Canadian National Railways, as announced in the Press by that Corporation some months ago.

October - December 1967

PART B - DEPARTMENTS AND DEPARTMENTAL CORPORATIONS

Staff strength in this Group decreased slightly (2.3 p.c.) to 230.7 thousand at the end of December 1967, from the September figure of 236.1 thousand. The largest decrease occurred among the Casual employees, where the work is generally of a seasonal nature. Total payrolls for the three month period amounted to \$337.2 million, a very slight increase (0.2 p.c.) over the July to September payroll. Comparative employment for December 1966 was 221.3 thousand employees and a quarterly payroll of \$311.8 million, indicating increases of 4.2 p.c. and 8.1 p.c., respectively.

Payrolls for the 1967 calendar year amounted to \$1,320 million, \$129 million (10.8 p.c.) greater than for 1966.

With the proclamation of the National Transportation Act in March 1967, the Canadian Transport Commission came into being and the Air Transport Board, Board of Transport Commissioners, and the Canadian Maritime Commission became Committees under the jurisdiction of the new Commission. The change, which appears for the first time in this issue of "Federal Government Employment" is readily seen in the Departmental detail under Transport. In the functional analysis the Canadian Transport Commission is included under:

"Transportation and Communications - Other". Prior to this issue, "Air Transport Board" was included under "Airways"; "Board of Transport Commissioners" under "Railways", which now disappears from the Table stubs; and the "Canadian Maritime Commission" was included under "Waterways".

As mentioned in the first paragraph, and apart from the above changes due to the formation of the Canadian Transport Commission, the variations noted in the functional analysis are seasonal, with the exception of the Post Office where there is an increase of salaried employees. A large portion of that increase is simply a transfer of employees from Semi-Staff offices to full operational status. It can be noted that, as the numbers under Post Office (Operations) increase, the numbers in the footnote regarding "persons paid from Postal Revenues" decreases. However, while the footnote reports only the postmasters and assistants, many of the Post Offices reaching full status required additional staff to handle the volume of work.
